Natural Energy is enhanced with Forskolin and Acetyl L-Carnitine, which combine to form the Forslean™ Mode of Action with proven results to help prioritize the metabolism of body fat for mitochondria cellular energy.

By stimulating Adenylate Cyclase and Cyclic AMP levels, Natural Energy may help regulate the body's thermogenic response to food, increase the body's metabolic rate and speed up the fat burning process. Natural Energy cuts the cords that bind fat and releases energy from stored Triglycerides to burn fat instead of lean muscle mass.

Natural Energy is 100% all natural, pharmaceutical grade and therapeutically dosed.
